Experience

Halyk OIY Hackathon | KZ
BackEnd Dev | Project Manager
11/2023 - 11/2023

- With my team, we developed an inventory web application. We won the **2nd place** and the prize of **750k**. During the project, I served as **project manager** and **backend developer**. My responsibilities included creating database tables, setting up connections between the frontend and backend, and overall managing all stages of the development process.
- Identified the needs of our customers promptly and efficiently.
- We prioritized and organized our tasks to efficiently achieve our service goals.
- We achieved cost savings by developing functional solutions to problems we encountered.

AMANAT | Hackathon | KZ
BackEnd Dev | Project Manager
11/2023 - 11/2023

- Translated business requirements into technical specifications for development teams.
- Built and maintained **back-end** applications using Java, Spring Boot, and Hibernate.
- Developed and maintained project plans, timelines, and budgets.
